

# FIRE

Fire coming down on me  
Fire burning down my knees  
I can't even walk no more  
Now I'm falling on the floor

Fire...Fire...

Frozen on the ground  
She said she's worried that I'll drown  
And I said, don't you worry babe, not in this town  
But I forgot that the fire is coming down

Fire coming down on me  
Fire burning down my knees  
I can't even walk no more  
Now I'm crawling on the floor

Why you had to leave my heart on the line  
Why forgiveness is not part of your mind... your mind  
Tell me why won't you let our paths intertwine  
Darling how could you let a stranger redefine our love...

Fire coming down on me  
Fire burning down my knees  
I can't even talk no more, no more  
Now I'm broken, I'm broken on the floor

I can't even stop, to breath... stop, to breath... stop, to breath  
Now I'm drifting with the breeze  
I'm drifting with the breeze...
