What if I wanted you to stay
What if we grew old and grey
What if we climbed the highest mountain
What if we risen, not fallen

What if I ruled the world
What if you were worth the hold
What if I loved another one
What if you gave me more than, none...

Then I'd never leave you
I'd just walk away...

What if our love was strong
What if we did belong
And what if I told you nothing could go wrong
What if I just went along

Then I'd never leave you
I'd just walk away...

I'd never leave you
I'd just walk away...

Baby I just wanted you to be with me
Not with anyone who came in hand with you
I was hoping we will be streamlining along the way
But the thunder is too powerful for you.

Baby I just needed you to be with me
Not with anyone who came in hand with you
I was hoping we will be streamlining along the way
But the thunder is too powerful for you.

The thunder is too powerful for you...
